

DZ1867 dot matrix clock

LED full-color dot matrix clock

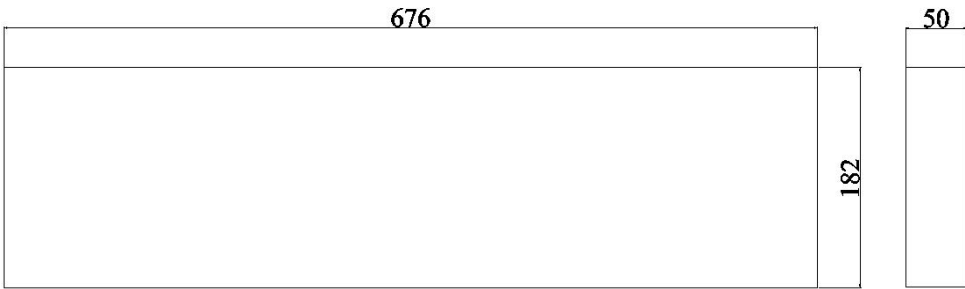

Features

- P1.86 pixel pitch, 344×86 pixels, full-color display
- Supports RJ45 network port and WiFi access
- No IP configuration required, automatic recognition
- Supports multiple styles of clock, text, and weather display
- Automatic time synchronization to eliminate timing errors
- Power-off time memory

Specifications

Type	Subcategory	Description
Interface	RJ45, WiFi	10M/100M RJ45 network port; WiFi @ 2.4G, supports IEEE 802.3 protocol
Electrical Characteristics	Power Supply	AC: 100-240V, 50Hz
	Power Consumption	<20W
	EMC compatibility	Complies with radio interference limits GB-9254-1998 Standard Class A
Mechanical Characteristics	Materials	Aluminum alloy frame/Acrylic panel
	Mounting	Wall-mounted/Suspended installation
	Dimensions	676×182×50mm
Environmental Characteristics	Operating Temperature	-20°C~+40°C
	Storage Temperature	-20°C~+40°C
	Humidity	0~60% RH

Dimensions

单位: mm
